

### 3. User Login Customization Story

The customized character will be centered in the middle of the screen. If the user taps once on the character, they will be brought to the User Interaction Story.

#### 1. Calendar Widget

- Displayed to the left of the character.
- Provides the current date.
- May also provide a message underneath the date depending on if there is a holiday on that current date such as “Indigenous People’s Day”.
  - The user can add events to any given date

#### 2. Weather Widget

- Displayed to the left of the character (below the calendar widget)
- Provides the current weather at the user's current location. The user can customize:
  - The location (current or selected location)
  - Unit of temperature (fahrenheit or celsius)
- Reminds the user what type of clothes to wear in the current weather.

#### 3. Currency Display

- Displays how much currency the user has.

#### 4. Drop Down Menu

Pressing on the drop down menu will give user access to the following buttons: Edit Character, Wardrobe, Minigame, Store, Settings.

- Edit Character: The user will be brought back to the User Login Story.
- Wardrobe: The user can dress up the character with items they own.
- Store: The user can buy virtual outfits
- Minigame: The user will be brought to the minigame story.
- Settings: The user can change the background and other settings.
